

UNITED INFRASTRUCTURE GROUP

The South Carolina Department of Transportation (SCDOT) proposes to replace six bridges in Union County in SCDOT District 4. This design-build project consists of all the work necessary to remove the existing bridges and to design and construct new bridges, including the associated roadway and drainage work necessary to tie the new bridge approaches to the existing roadway.

Conceptual Information: <https://www.scdot.org/business/BridgePackage17.aspx>

The bridge replacements and associated roadway tie-ins shall be constructed on a relocated centerline alignment as detours are not allowed for traffic control except for Asset ID 2095. For Asset ID 2095, the bridge shall be replaced on the existing alignment on the existing centerline. The work also includes repairing any deficient roadway embankments within the roadway approach limits of each bridge. The Asset ID 0579 site may require relocation of side roads (S-33 and S-78) based on final design.

Number	Route	Crossing	Asset Number	Construction Time [calendar days]
1	US 176	PADGETTS CREEK	148	210
2	SC 72	COX CREEK	365	450
3	SC 215	FAIRFOREST CREEK	467	450
4	SC 49	TYGER RIVER	579	520
5	SC 49	FAIRFOREST CREEK	580	450
6	SC 114	SANDY RUN CREEK	2095	250

This scope of work shall include the removal and disposal of all the existing structures within SCDOT right-of-way. The Contractor shall clear all debris above the existing ground line within the project right-of-way limits. End fill slopes shall be excavated to accommodate the new structures as needed.

All bridges are currently open to traffic.
