Siemens Mobility, Inc, Rolling Stock – Seeking Qualified DBE & Small Business Firms for Supplies & Services

Siemens Mobility, Inc. Rolling Stock – Seeking Qualified DBE & Small Business Firms for Supplies & Services

The Siemens Mobility, Inc. Rolling Stock factory in Sacramento, CA is seeking qualified Disadvantaged Business Enterprises (DBEs) and Small Businesses that are able to supply goods and services in the area of railcar manufacturing. This can include but is not limited to: car body assemblies and components, interior and exterior illumination components, windows, windscreens, seats, interior paneling, luggage racks, handrails, flooring, traction electric components, wheel sets, diesel and cooling systems, cabling, high and low voltage electrical cabinets, fire detectors, fire extinguishers, smoke detectors, passenger information system and infotainment, destination signs, HVAC units, door components, brake systems, vehicle control systems, mechanical and electrical connecting parts, hardware, shipping supplies, MRO supplies, logistics, decal and vehicle wrapping, and technical services.

We are interested in meeting potential suppliers to develop relationships and increase the probability of successfully obtaining business opportunities together. We constantly strive to deliver high quality solutions into the hands of our customers. To help achieve our mission, we partner with a broad variety of suppliers, including small and disadvantaged businesses.

Siemens actively encourages DBEs (in accordance with 49 CFR Part 26) and Small Businesses that design, manufacture, supply and/or service components which are generally accepted in the rail transit manufacturing functions to submit their information together with their current certification.

Please submit your information stating qualifications and areas of expertise by e-mail to our procurement department: strategicpurchasing.us@siemens.com.
