

Carolina Crossroads Phase 3C

I-20 Widening and Saluda River and CSX Bridge Replacements - Design-Build Project

Project ID P043325

ATTENTION SCDOT CERTIFIED DBE SUBCONTRACTORS, SUPPLIERS, AND VENDORS:

The United Blythe Joint Venture (UBJV) team was awarded the Contract for the Carolina Crossroads Phase 3C Design-Build project, which cost proposal was submitted on April 17, 2025.

UBJV reached out to SCDOT DBEs pre-bid from January to April 2025, and our team will continue to reach out to and include participation throughout the design phase until construction of the project begins. If you are an SCDOT DBE and have not submitted a quote to UBJV (pre-bid), please contact our team. If you submitted a quote to UBJV, there are further selections, negotiations, and scopes of work development steps that our team is taking to maximize and aggressively build our DBE partnerships on this exciting project.

There will be networking opportunities and meetings planned to communicate and incorporate additional partnerships with SCDOT certified DBEs soon.
